Are Your LED
Products Obsolete?

April 2015 www.ies.org

The City of Albuquerque wanted a lighting design that would create a sense of place for users of the Bear Canyon Bridge, which connects the Sandia Mountains and the Rio Grande bosque across Interstate 25.

AWARD SHOW

IES ILLUMINATION AWARD OF MERIT

The blue color scheme represents water and honors the arroyo, or catch basin, that sits below the bridge.

“ANY ANGLED LIGHT” BEAR CANYON ARROYO BICYCLE/PEDESTRIAN BRIDGE

Designers: Linnaea Tillett, Kate Gardner, Charlie Brokate
Company: Tillett Lighting Design Inc.

Uplights on a photo-cell timer illuminate the underside of the roof and provide a subtle glow from afar without spilling into the night sky.

LED fixtures (450 total) with custom dichroic glass lenses light the pathway. The fixtures are integrated into the structure and hidden from sight.

“Our vision, ‘Dream of Water and Memory of Sky,’ is at once a celebration and a bittersweet memory of a vanishing resource.”

Linnaea Tillett
